

European Triticaceae Genomics Initiative

---

## Announcement of the 2nd workshop

5<sup>th</sup> Plant GEM meeting- Venice 12<sup>th</sup> October 2006  
**16h30-18h30**

The 2<sup>nd</sup> workshop of the European Triticaceae Genomics Initiative will take place during the 5<sup>th</sup> Plant GEM (<http://www.distagenomics.unibo.it/plantgems/>) meeting in Venice.

### Agenda:

- 1. Progress report of the past year activities (C. Feuillet/N. Stein)**
  - White paper/Letter of Intent/EPSo survey/EOI Eurobiofund
  - ERA-PG call/Questionnaire (N. Stein)
  - COST action (A. Schulman)
  - Coordination with other projects: Brachypodium (M. Bevan)
  
- 2. Reports by the Coordinators on ETGI activities**
  
- 3. Organisation of working groups**
  - Tools for Assessing and Harvesting Genetic Diversity
  - Accessing the Physical Genome for Sustainability and Quality
  - Implementation of Genomics Approaches for Understanding Cereal Traits
  - Functional Genomics for Testing and Validation of Candidate Genes
  - Training and Educational network
  - Others?
  
- 4. What's next**
  - Collaborations/coordination with international efforts
  - Next applications (ERAPG, FP7...)
  - The route to developing projects for ETGI in the FP7 (I Albouy, INRA-European affairs)
